

Interpretation Board for the Wildflower Meadow at the Green in Abbots Ann

Purpose: To attract the attention to the Meadow of visitors to the Green, to let them know its purpose, and to give information about the most common flowers and grasses to be seen there.

Funding: By Abbots Ann Green Action

Design: The picture displayed has been designed by Mr John Moon and Anton Visual. It is attached. It will be 420mm wide and 594mm high.

Position: It will be placed at the apex of the semi-circular fence at the edge of the meadow thus giving it maximum visibility to people crossing the Green

Fixing:

The board will be a 3mm solid aluminium sign panel mounted on 18mm thick marine ply back fixed on a single solid oak 100mm X 100mm post lectern style at a height convenient for children to view. See attached example for the style.

The post will be sunk in the ground using a MET post (made of steel: a 3' long spike sunk into the ground with a 6" green socket on top into which the post is fixed). It will be attached to the Board using the brackets etc. supplied for the purpose by Anton Visual.
